Convert Your Manual Flush Valves To Sensor-Operated Hands-Free Flushing With The Zurn E-Z Flush™

E-Z Flush Retrofit Kits

The Zurn AquaSense® E-Z Flush is the most installer-friendly flush valve retrofit kit on the market today. Not only does E-Z Flush allow you the fastest and easiest changeover, but E-Z Flush gives you the tools, batteries and adaptors to start and complete the job. Unlike other kits that limit themselves to the number of manufacturers and models they can retrofit, E-Z Flush's unique handle port mounting feature makes E-Z Flush the most versatile flush valve retrofit available today. Once installed, E-Z Flush provides trouble-free automatic flushing for both the building owner and the user.

E-Z Flush Sensors Fit All Sloan Royal® and Sloan Regal® Manual Flush Valves

Adjustable Sensor Range & Features.

E-Z Flush is adjustable and flexible. Our sensor range is adjustable for various installation applications and with the use of our high mount adapter kit, tall flush valve rough-ins can be angled to fit the users requirements. E-Z Flush is also supplied with a courtesy flush button for manual operation when desired.

E-Z Flush Unit Is Easy To Retrofit.

E-Z Flush is easy to install. Simply loosen the existing handle nut and remove the handle. With the collar gasket in place, slide E-Z Flush onto the flush valve and tighten the handle nut. There is no need to gain access to the inside of the flush valve, E-Z Flush retrofits with the existing flush valve internal kit. Install the supplied "C" batteries and you are done. From manual to sensor in less than 3 minutes.

E-Z Flush Comes Completely Packaged.

E-Z Flush furnishes everything you need for a quick, no-hassle retrofit. The exterior carton is self-explanatory as to unit model and features. The inside packaging contains your E-Z Flush unit, four "C" cell batteries, battery compartment wrench, handle nut gasket, and handle nut wrench. Enclosed instruction booklet contains installation instructions in both English and Spanish.

E-Z Flush Sensors Fit All Sloan Crown® Manual Flush Valves

E-Z Flush Sensors Fit All Sloan GEM® Manual Flush Valves By Ordering Your E-Z Flush With The Suffix -GM

Urinal Or Closet Mounted Operation.

The Zurn AquaSense® E-Z Flush is factory pre-set for urinal and water closet applications. When the unit detects the user's presence, the user-in-view L.E.D. lets one know they are in the sensor's viewing range (minimum 8 seconds). Once the user leaves, the E-Z Flush flushes the fixture automatically.

E-Z Flush Benefits

- Increased Sanitation
- User Friendly
- Water Savings
